

SAKIB KAHADI KHAN

Frontend Developer (Next.js)

Dhaka, Bangladesh | 01998597743 | sakibkahadi72844@gmail.com | [Portfolio](#) | [Linkedin](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Frontend Developer with production experience building scalable SaaS applications, high-converting landing pages, and responsive, accessible interfaces using Next.js and React.js. Skilled in Next Auth, Zustand, Tailwind CSS, and shadcn/ui for building secure, component-driven UIs, with hands-on experience integrating REST APIs, real-time features, and third-party services such as Pusher and easy-email. Delivered production frontends for real-world platforms including VLOO, a flexible workspace booking marketplace, and Yaabi, a Norwegian email & SMS marketing SaaS platform.

TECHNICAL SKILLS

- **Languages/Frontend:** JavaScript (ES6+), React.js, Next.js, Zustand, Tailwind CSS, shadcn/ui, Next Auth
- **Backend & Databases:** TypeScript, NestJS, REST APIs, PostgreSQL, MongoDB, TypeORM, Mongoose
- **Security & Auth:** JWT, RBAC, OTP
- **Tools & Deployment:** Git, GitHub, Postman, Vercel

WORK EXPERIENCE

Frontend Developer - Lamp Techs

Aug 2025 - Present

Dhaka, Bangladesh

- Developed responsive, production-ready SaaS applications using Next.js and React.js.
- Implemented secure user authentication and session flows using NextAuth.
- Translated Figma designs into pixel-accurate, responsive UI implementations.

KEY PROJECTS

VLOO — Flexible Workspace Booking Platform

[Live Site](#)

Role: Frontend Developer / UI Developer

Next.js | React.js | Tailwind CSS | shadcn/ui | NextAuth | Zustand | Pusher

Designed and developed the customer-facing frontend for VLOO, a workspace booking marketplace connecting customers with hosts for flexible short- and long-term office space rentals.

- Built location-based workspace discovery and end-to-end booking UI supporting flexible stays of up to 20 days, plus long-term extension requests.
- Built the host dashboard for managing space listings and approving or rejecting extension requests.
- Implemented real-time customer-host chat using Pusher, with Zustand managing chat and dashboard state.
- Built reusable, responsive components (listings, pricing, testimonials, FAQs, CTAs) using shadcn/ui and Tailwind CSS.

Yaabi — Email & SMS Marketing Platform

[Live Site](#)

Role: Frontend Developer

Next.js | React.js | NextAuth | MUI | Zustand | easy-email

Designed and developed customer-facing product workflows for Yaabi, an email and SMS marketing SaaS platform, covering campaign creation, automation, and analytics.

- Built campaign creation workflows for email/newsletter and SMS marketing, including a custom email builder (easy-email) and reusable templates.
- Implemented campaign scheduling and recurring automation flows on daily, weekly, and monthly cycles.
- Built custom coupon creation and campaign analytics views for tracking performance.
- Implemented responsive UI and state management for campaign flows using MUI and Zustand.
